SLIGHT LULL IN

Heavy Trading of Wednesday Gives Way to More Moderate Dealings.

NEW YORK, March 24.-A much smaller amount of business was transacted in the stock market today than on the two preceding days, and the market showed the effect of the extensive realizing which had been effected on those days and the elimination of a large portion of the short

interest of the market. There was no evidence of larger operations by powerful forces which kept the market stimulated yesterday and the day before.

The source and the purpose of these operations have been a cause of bewilderment even to the professional traders, who have followed them eagerly in the stock market to secure a profit in the resulting price movement.

Emphatic denials from official sources

Colds Are Dangerous.

How often you hear it remarked: "It's nly a cold," and a few days later learn hat the man is on his back with pneuionia. This is of such common ocmence that a cold, however slight, hould not be disregarded. Chamberitn's Cough Remedy counteracts any endency toward pneumonia. It always ures and is pleasant to take. stock market to secure a profit in the resulting price movement.

Emphatic denials from official sources that any large interest in Union Pacific was being accumulated by Northern Pacific or Great Northern interests have somewhat shaken the speculative which have received most credence as to the cause of the enormous absorption of that stock on Tuesday.

This doubt is emphasized by the sudden subsistence of the demand, indicating that it has been satisfied, whatever source it may have come from, leaving no solicitude to sustain the market price of the stock.

The Northern Securities plan of distribution offers no reason for its sudden and conclusive advance. Neither does the explanation of an uncovered short interest serve to explan satisfactorily the sudden buying of various stocks in such volume as has been seen this week. Yet the buying as indubitable and the speculative was the reflection of this perplexity. Several stocks, including Amangamated Copper, were pushed up at different times as though to sustain the market.

The continued activity in the curb market for Northern Pacific and Great Northern preferred and Great Northern preferred and Great Northern preferred and Great Northern preferred assets.

Further rains in the winer wheat rest were of no help to stocks in face of the rise in the price of wheat futures Gonditions still further approached the gold export point without affecting the money market.

The decline in London discounts in creases the disposition to withdraw

export point without affecting the money market.

The decline in London discounts increases the disposition to withdraw French capital from there, and it is this demand upon New York which it is expected to draw gold from her. The continued case of money here with this prespect offers some inducement to the holding of securities with borrowed funds and is one of the reasons offered for the improved demand for stocks. The weight of realizing upon the whole market gained force and carried it down to the lowest at the closing, which was weak.

The bond market was irregular and not so active. Total sales, par value, \$1,00.

PROVISIONS SCARCE AFTER THE STORMS

Nearly All the Fish Was Sold Out, Except Halibut-Eggs Are Becoming Dearer.

What with snowstorms and the Souther Pacific trains being blocked on account of the weather, there is a scarcity in almo every line of provisions in the city. Butch ers were expecting a consignment of spring lambs, and other kinds of meabut nothing showed up; fishmongers wer looking for a large shipment of all kinof fish, and two or three carloads of oranges, one car of mixed fruit and a bi lot of green stuff. All are held up.

The only fresh arrival yesterday was shipment of Utah poultry. This product will be plentiful all the week, as a consignment of Eastern dressed hens will come today, and the market is atready pretty well stocked. Fish was extremely scarce yesterday. By the afternoon almost the only kind to be had, and not

RESUME OF IRON TRADE FOR THE PAST WEEK

Trade Review, in this week's issue, says: Response of both producers and consumers to the improvement in the iron market that became plainly noticeable two weeks ago has been general. In pig iron, while the important contracts made in March were at prices ranging from \$3 to \$3.50 for Southern No. 2 foundry, there has been a fair business in the past week at \$3.75 and \$10 and the latter is now generally maintained. There is some improvement in the business of melters of iron, slight as yet, but likely to go farther as the spring advances. Northern furnaces have generally followed the Southern advance and \$12.50 at furnace for No. 2 is rarer now, \$13 being maintained by most producers in the middle West, while in the Chicago market \$14 is quite generally osked for No. 2. Bessemer from has advanced since the large buying of the past few weeks. For April and May, \$13.35 at valley furnace is now commonly asked, and for April delivery \$13.50. The situation in steel is decidedly firmer and not only are scheduled prices for billets being maintained, but mills are strictly adhering to extras. An Indiana inquiry for \$3,000 tons of sheet bars has been up in the pasht week. Plates are in better demand and structural steel is mere active. were at prices ranging from \$9 to \$9.50

New York Cotton.

NEW YORK, March 24.—The cotton market opened steady at an advance of 45% points under room covering and buying was heavy as a result of higher cables. The close was steady at a net advance of 20/24 points on the active months, while the new crop was net two points lower to 5 points higher

NOTICE TO WATER USEM.

State Engineer's Office, Salt Lake City, Utah, Feb. 26, 1901.—Notice is hereby given that Irving M. Higley, whose postoffice address is Salt Lake City, Utah, has made application in accordance with the requirement of chapter 100 of the Session Laws of Utah, 1933, to appropriate eightenths (8-190ths) of a second-foot of water flowing from three certain springs situated in lot 2, block 45, Acn-acre Plat A, Big Field survey, Salt Lake county, Utah, which springs are tributary to the Milicreek branch of Jordan river. The water is to be diverted by means of dams and ditches into ponds at various places on said described lot, where it will be used continuously from January 1st to December 31st, inclusive, of each year for domestic purposes and for supplying said ponds with the water necessary for the spawning and propagating of fish, and also for use in irrigating said described lot from April 1st to October 1st of each year. This application contemplates that water equivalent to one-eighth (1-sth) of the combined flow from the springs will be consumed and that the remaining seven-eighths G-Sths), after having passed through the fish ponds of the applicant, will be returned to the natural channel leading from said springs to Mili creek.

All protests against the granting of said application, stating the reasons therefor, must be made in writing and filed in this office after thirty (30) days and before slavy (60) days from the date hereof.

First publication Feb. 26; last, Mar. 26th.
